1 Pakistan Software Export Board (G) Ltd, An Introduction

Pakistan Software Export Board (PSEB) is the government agency mandated to promote Pakistani IT industry locally & internationally.

PSEB is a guarantee limited company totally owned and funded by the Government of Pakistan. It is under the administrative control of the Federal Ministry of Information Technology and Telecommunications, and has a non Executive Board of Directors that is chaired by the Federal Minister of IT and Telecommunications.

Through its many support programs, PSEB aims to help Pakistani companies and professionals in obtaining a greater share of the domestic as well as the global IT and ITeS market place.

2 Major Functions of PSEB

Since 1995, PSEB has been facilitating the overall development of the IT industry in general, and the export of software as well as IT enabled services in particular. Major functions are as follows;

1. Formulate and implement policy frameworks and incentive packages for the IT industry.
2. Act as an interface between the Government and the IT industry.
3. Interact with the relevant regulatory bodies to develop the enabling infrastructure.
4. Conceptualize and execute projects for the development of the Industry.
5. Enhance the quality of IT education.
6. Resolve problems/concerns of the IT industry with relevant government quarters.
7. Address queries by overseas companies or direct them to the appropriate channels.
8. Maintain the competitiveness of the local IT industry in the international market by creating a viable domestic environment.
9. Bring IT companies under one platform.
10. Market Pakistan as a viable IT Destination
11. Monitor developments within the global IT sector and formulate / implement policies to adjust for the changed environment.
12. Accelerate the growth of the domestic IT Sector.

3 Introduction to the Project (Standardization of Pakistani Software Industry)

The Capability Maturity Model Integration (CMMI) is globally regarded as the most authentic quality standard for the software industry. It has been developed by the Software Engineering Institute (SEI) of Carnegie Mellon University (CMU) to improve software development processes. Since its establishment in 1987, the model has gained popularity throughout the world and it has become the de facto international standard for software process improvement and software capability evaluation.

PSEB has already assisted 34 companies on CMMI level 2, Level 3 & Level 5.

PSEB is now looking forward to assist 06 companies at CMMI v2.0 Level-3 and 03 companies at CMMI v2.0 Level-5.

4 Objectives of this advertisement

The objective of this advertisement is to provide consultancy to 09 PSEB selected Companies, 06 at CMMI v2.0 Level-3 and 03 Companies at CMMI v2.0 Level-5

PSEB shall bear 70% cost associated with the consultancy and final assessment of the company, whereas remaining cost shall be borne by the company being consulted/assessed.

5 Purpose of this Document

The purpose of this document is to specify the approach that PSEB will use to evaluate and select the consulting company/firm for Level-3 & Level-5. This document also describes the requirements that the company has to fulfill in order to be selected as consulting company.
